IBM Tivoli Netcool/Proviso 4.4.3 Reporting

At a glance

Duration:	3 days
Delivery method:	Classroom
Language:	English

Course description

This course will teach you how to configure IBM Tivoli Netcool/Proviso reports. Report administration tasks such as user creation and subelement reporting group addition are demonstrated through hands-on exercises. You will also learn to configure new reports and customize the reporting Web portal using Netcool/Proviso tools.

Objectives

Upon completion of this course, the student will be able to:

- Understand relationships between reports.
- Navigate the Netcool/Proviso reporting portal.
- Create and manage report users.
- Add subelement report group structures.
- Use reports in new subelement groups.
- Create a new report.
- Modify reports.
- Export and import report objects.
- Configure advanced reports.
- Modify portal appearance.
- Customize the portal for a report user.
- Configure the DataView Scheduler.
- Schedule report tasks.
